e-Earth Electromagnetic Energy Fields Revolutionizing Treatment of Autism?

Posted on [September 14, 2016](#) by [Thinking Moms' Revolution](#)

September 14, 2016

Ana Maria Abba, mom of son with autism age 8, [YouTube video testimonial](#). <https://www.youtube.com/watch?v=Bm4cK3VLL4E>

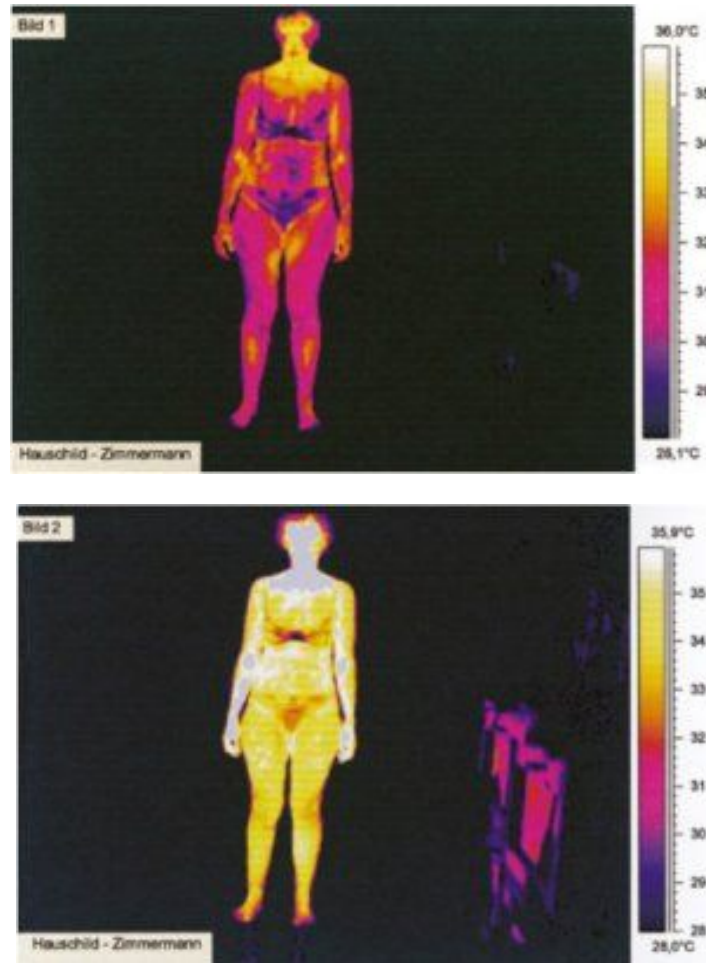

The Russians sent out a cosmonaut for 1 hour and 41 minutes and he came back with brittle bones and depression. As much as we need air, food, water and shelter, we also need electromagnetic energy. Electromagnetic energy can be considered the fifth essential to life that no one is talking about. Applied properly, as with e-Earth pulsating electromagnetic energy field (PEMF) devices, it can accelerate autism recovery and has the potential to revolutionize how we care for those with autism.

Fifty-five (55) years ago the National Aeronautics and Space Administration (NASA) learned that we disintegrate and die within a few hours when we leave Earth and orbit in space. The sun provides vital electromagnetic energy that is stored in [Earth rock](#), cosmic rays bathe in our [atmosphere](#), and energy waves supply us from the [ionosphere](#). The Earth's electromagnetic energy (or *e-Earth Energy*, as Eileen Kurlander calls it) fortifies us, sustains us, and helps us repair and grow stronger.

Technology intended to replicate the Earth's electromagnetic energy has been produced and studied for over 40 years. [Johnson Space Center's staff studied its ability](#) in the space station to maintain astronauts' physical, mental, and emotional well-being. This technology is replicated in home devices designed to support wellness. *In a 4-year long*

NASA study ([NASA, 2003](#)) Thomas Goodwin concluded that electromagnetic energy that mimics the Earth's naturally occurring energy, "can enhance the brain, body, tissue, organ and cellular processes towards greater repair, growth, and regeneration towards a stronger more vibrant state."

e-Earth Energy can enhance the body and mind so that it repairs itself, develops, and grows to higher states of well-being.

Improved circulation – Woman before and after an 8-minute session

Eileen Kurlander, owner of [Natural e-Intelligence, distributor of e-Earth Energy](#) PEMF devices and the researcher behind the 30-day e-Earth Energy study has been using this low-frequency pulsating electromagnetic energy in her wellness practice for six years. She finds the e-Earth Energy system lightweight, portable, and very easy for people to use. The system offers two delivery modes: 1) a yoga-sized mat to lie down on or sit upon, and 2) a second pillow-sized mat designed to be placed over the gut or area of discomfort. People find that use of the device is very relaxing and can produce profound beneficial results in minutes.

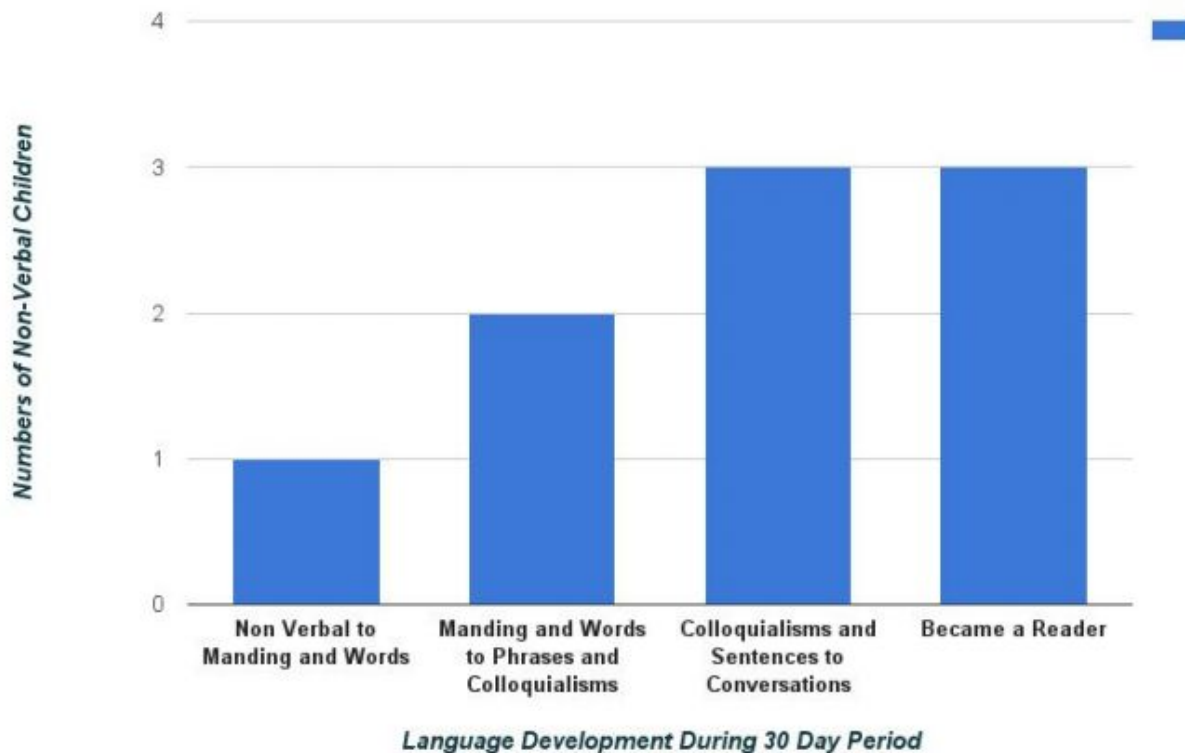

In Eileen’s practice, she has found the e-Earth Energy system useful in supporting **underdeveloped neurological systems**, people with **autoimmune conditions**, and people with both **chronic and acute illnesses**. All the members of her family have used the system with great benefit, including one on the autism spectrum. It was Eileen’s desire for recovery that prompted her to explore e-Earth Energy’s benefits for people on the spectrum and inspired her to conduct a study on its effects on four children ages 8 to 13 with autism spectrum disorder (ASD), three of whom were nonverbal at the study’s start.

Child using the e-Earth Energy Wellness System

Just completed, the study ([“e-Earth Energy Pulsating Electromagnetic Energy Fields \(PEMF\) improves Autism and Autism Spectrum Disorder \(ASD\). A Preliminary Report.”](#)) indicates that the e-Earth Energy Wellness System offers across-the-board benefits for people with autism as demonstrated by dramatic improvements (of approximately 15 points each) in the children’s [ATEC](#) scores over a 30-day period. Be sure to check out the study’s graphs to get a quick overview of the significant improvements each child experienced.

LANGUAGE ADVANCEMENTS FOR NON-VERBAL CHILDREN WITH AUTISM

Sample of study results in three non-verbal children with autism

At TMR we are always interested in bringing you information on therapies that can help ease the difficulties of autism and/or support recovery and wellness, and we're delighted that this particular non-invasive treatment can have benefits for the whole family as well.

Below is a summary of the results of the study, including parent comments from some long-time TMR friends. (Be sure you watch the video of Ana Maria at the top of the page.)

Children with ASD showed these improvements at home and school in the study:

- Forming relationships and in new social interactions.
- Made verbal and nonverbal communication advances.
- Decreased repetitive sounds, increasing words and conversation.
- School behaviors and learning improved.
- Decreased unhappiness, increased pride.
- Decreased aggression, frustration, and anger.
- Improved intellectual evenness, with boosts to disabled or incomplete areas.
- Improved physical endurance, gross- and fine-motor coordination.
- Longer periods of attention and focus: able to enjoy a movie, learn.
- Increased comprehension, more learning, learning to read.
- Improved falling asleep, staying asleep, and sleeping well.
- Greater consciousness, awareness, and presence.
- Eating more and making better choices.
- Improved gastrointestinal and bowel function.

Parents concluded for themselves that sessions with the e-Earth Energy System resulted in reduced pain, anxiety, and stress levels and increased energy, happiness, and patience in their children. It was easy to use, and their children liked it. In addition, the e-Earth System made it easier for them to be better parent. Over the long-term, [with prices starting at \\$2995 for a basic package](#), they felt it would be one of the more affordable biomedical treatment options.

If you'd like to learn more about how the e-Earth Energy system can improve your family's wellness, join our new Facebook group [e-Earth Energy for ASD](#) and/or our Zoom webinars this week by emailing info@e-Earth Energy.com with the word "WEBINAR" in the subject line. Include your full name and cell or home phone number so we can provide the webinar and phone login. If you're interested but feel it's out of your price range, be sure to check out our [financing options and suggestions for raising money](#).

WRITTEN PARENT TESTIMONIALS:

For months, my teen with autism had stopped going to bed and sleeping as usual and was roaming during the night, waking us up at 4:30 a.m. After a week of the e-Earth Energy Wellness system, he is going to bed on time, staying asleep and having better days. Not only has he recovered, but we didn't suffer as much having the mat to use to recover ourselves. We are all so much happier with great sleep.

Laureen Forman, mom of son with autism, age 13

My son now participates more with the family. He is vying for more of our attention and says, "Hey, look at me!" He seems more with it, and there's a flow in conversation. He follows along with what other people are saying and makes comments. With his two sisters he says, "I want to play too." He has better tolerance for play and is able to play for several minutes before getting frustrated.

Nancy Kirkman, mom of son with autism, age 10

Attacks and biting have gone way down; he's not in constant fight/flight, has better overall function, is happier, and is able to focus and learn. He also began to learn to read! Now I wake up feeling rested and feel less exhausted in the afternoon after work, even though I get up for work at 3:30 a.m. This definitely has cleared the fog and exhaustion, and I feel much better.

Vanessa Surprise, mom of son with autism, age 10

"There's a revolutionary cure for pain that few doctors know about because it is not a new pill or surgery. Energy waves are created so relief and healing can begin – you don't just feel better, you are better." (The Dr. Oz Show, 11-16- 2011)

The e-Earth Energy Wellness System manufacturer has a solid foundation and 20-year proven track record of providing superior, warranted products. This technology is already approved for sale by the FDA, approved by Health Canada, and approved in Europe and Asia.

We Care Spectrum Wellness Center

www.e-EarthEnergy.com

e-Pro and e-Tablet PEMF Wellness Systems

Starter Systems Come With:

- 1 Control Unit of your choice, select the e-Pro Digital or the e-Tablet Computer.
- 1 Full Body Mat to Lie Down On
- 1 Localized Area Pad
- Product Coaching
- Warranty & Lifelong Service

Full Body Mat

Local Area Pad for discomfort, digestion.

Global power plugs included!

ADD ON! 30-Day Family Intake & Wellness Support
\$1,895. Value - Fall Special \$475.

Add Accessories, Upgrades, Check Current Price

858-945-7532

info@e-EarthEnergy.com

Select the e-Pro Digital or the e-Tablet Android System:

e-Pro Digital Starter Set

e-Pro 12' Advanced Digital Control Box with Soft Keys

Simple to use soft-touch buttons for manual control and a guidance chart with recommended settings. Sturdy system with hundreds of settings!

\$3,575.

3-year warranty, 4 and 5 year options

e-Tablet Android Starter Set

Purple Cover Case Included! Special Android Tablet Control Unit Included!

Light weight portability with pre-set touch and manual control programs!

- Relaxation
- Performance
- Rejuvenation
- Sleep
- Discomfort & More!

\$2,995.

3 year Standard 3-year product and 1-year Tablet warranty
